

Macintosh Accent Codes

Accented Vowels

For the Template, the symbol "V" means any vowel. The format is to hold the first two keys down simultaneously, release, then type the vowel you wish to be accented.

Note: You should use the French Keyboard if you need to type accents on the letter y.

ACCENT	SAMPLE	TEMPLATE
Acute	á Á	Option+E, V
Circumflex	â Â	Option+I, V
Grave	à À	Option+`, V
Umlaut	ë Ë	Option+U, V *

Example 1: To input the lower case ó, hold down the Option key, then the E key. Release both keys then type lowercase o.

Example 2: To input the capital Ó, hold down the Option key, then the E key. Release all both keys then type capital O.

Other Characters

Consonants/Punctuation	
ç	Option+C
Ç	Shift+Option+C
«	Option+\
»	Shift+Option+\
□	Shift+Option+2 (not on older fonts)

Example 1: To input French ç (Option+C), hold down the Option, then the C key. The ç will appear.

Example 2: To input French Ç (Shift+Option+C), hold down the Shift key, then the Option key, then the C key. The Ç will appear.
